About the Author

Hi! My name is Whitney. I am an international English professor and I have been an English professor of EFL for almost 23 years, during which time I have taught at all levels, and many age groups from Middle School up to adults. I have taught at a few big organizations in Korea and China, Open Universities, technical colleges, and high schools. I take great satisfaction in the fact that I was successful in helping even the weakest students to speak English and dramatically improve the level of many of those I taught. My success in teaching English is a huge part of why I am so confident in giving advice about learning languages. As English has become such an important skill for connecting with the world at large - be it for business, education or pleasure - I am eager to do all I can to support you in reaching your individual goals.

ACCENT REDUCTION FOR PROFESSIONALS: HOW TO ELIMINATE YOUR ACCENT TO SOUND MORE AMERICAN BY WHITNEY NELSON PDF

Strong Accents Can Affect Hiring Chances

In “Accent Reduction For Professionals”, you’ll discover secrets of reducing – and eliminating – your foreign accent.

Envision the ability to present a contract or proposal to your colleagues and not worrying about how you sound, confident in knowing that you’ve effectively masked your tell-tale accent and how everyone is listening to what you are saying and not how you’re saying. With this guide, you’ll quickly learn the easiest ways to sound more like an American and dramatically improve the way you sound.

What insights can you be assured of learning when you read and implement the tips, tricks, and techniques revealed in this concise book?

- 8 secrets to quickly and effortlessly reducing your accent
- The Number 1 method of acquiring not only accent elimination but the intonation and syllable stress of native English speakers.
- What are the sounds that English speakers use daily that are difficult, if not seemingly impossible, for those who are still learning to master the intonation and other nuances of the language

This Guide will Also Reveal How to Overcome:

- The use the “s” or the “z” sounds at the ends of words. (What you didn’t know that sometimes the letter “s” could be pronounced as a “z”?)
- The proper pronunciation of perhaps the trickiest sound of all: the “th.” With the instructions in this book, you can swiftly conquer this sound and rapidly improve your accent
- The diphthong problem that confuses and confound so many non-native speakers.
- The seemingly insurmountable hard “r” sound. Did you know English is the only language with a true hard “r” sound?

In this revolutionary approach to speaking like a native, you’ll discover what in your speech has been holding you back. You’ll be able to start implementing these practical tips and others will stand up and take notice immediately.

This Accent Reduction Guide is For You If..

- ✓ You have a high school diploma
- ✓ English is not your first language
- ✓ Public speaking is part of your job
- ✓ You are trying to get a career that requires perfect accent
- ✓ Having good communication skill is required in your job

If any one of those sounds familiar to you, perhaps you have found the right book. This book is essential for you to break through and not only improving your spoken skills but developing them so well that you can communicate with others efficiently.

This is exactly what my people need.

By KC

I have to agree at most of the points from the book. I certainly believe that our accent is one of the factors that affects the flow of our communication. It has direct effect on our career goals.

I, for one take pride in my accent. Therefore, I have honed my accent to adapt in many situations. I feel like this book will benefit most those that are not naturally English speaking or learning English as their second language. I do not discriminate based on accent but I have to agree that softening your accent makes it more professionally equipped especially in your career advancement.

The steps and tips are practical that uses common words. Direct to the point and concise. This is exactly what my people need. I think this book is perfect with audio companions. Recommended!

Valuable book!

By Jolly

Wonderful Book! English is not our first language but English is an international language all over the world So it's very important all of us. We must know about the American accent. If we don't understand American accent, then it's very difficult to communicate with the American people. This book reveals some really important factors of accent reduction. If you have a really good ear, you'll also hear that when you stress the first syllable the pitch of your voice lowers even while you're still speaking it.

This book shows how to improve our American accent. I can relate most points of the book. So this is such an very worth reading book for all! Recommended!

it should be a great book, offering me a lot of techniques and ...

By christian

Did not deliver. I read the comments and I thought "wow, it should be a great book, offering me a lot of techniques and recommendations on how to reduce my foreign accent." But it wasn't. There were some examples on the vowels and consonants, but it lacked the transcription, nor it provided the CD with the right pronunciation. They explain how to pronounce the sounds without any audio material, this is hilarious. If you want a really good book on the pronunciation and reducing your accent, I would definitely recommend the book by Ann Cook called American Accent Training.

P.s. There were some spelling mistakes in the book, I can't give you the page number, because they weren't paginated. And I wonder why does this book have so much of a positive feedback?
