# **DOBLE VÍA: COMUNICACION EN ESPANOL, STANDALONE (WORLD LANGUAGES) BY RONALD J. FRIIS, TATIANA SEELIGMAN PDF**

DOBLE VÍA is a groundbreaking Spanish conversation program written to help students bridge the gap from the Intermediate to the Advanced ACTFL levels of proficiency. DOBLE VÍA uses a stepped approach to prepare students for global citizenship through self-reflection and thoughtful exploration of Hispanic cultures and communities. Students are encouraged to learn more about themselves, explore Hispanic cultures, and connect to the Spanish-speaking community. An innovative video program and engaging online practice extend the topics and structures covered in the text to provide uniquely personalized contexts in which students can sustain conversations, and improve their accuracy before taking a culture and civilization course or studying abroad.

I'm not a fan of this book...

By Cricket

We've been using it in my Spanish conversation class and honestly, I think it's an assembly of pretty pages with no real content. Even the online homework isn't at all challenging. Maybe I just have a vendetta against learning a language out of a book, but I don't think this is a very good overview. I'd rather talk for extended periods of time and have a tiny little grammar manual to reference and learn about what I'm using. This book seemed out of order, and the topics covered in cultural sections are for the most part pretty uninteresting. Not a fan.

## A Pleasing Communcation Book

By Ryan

I am only on the 3rd Chapter of this book, but my experience so far is that it keeps things simple. If you have a professor who facilitates a lot of one on one or group conversation in the classroom, this is a good book to use. It fills in the simple gaps; for example, in a conversation, you may not know, or forgot, how to say, "What did you say?." The answer is "Como dice?" The book reviews essentials (Claves=keys) like this that you need to know to be able to effectively communicate.

Just a heads up that if you want a book ...

By Jfran

Just a heads up that if you want a book with an access code it's not worth it to pay for the new one because it doesn't come with one anyway. I made the mistake of buying this book new because I believed it would have an access code...now I have to spend an extra \$40.
