Want to improve your Spanish? Here's the book for you!

By All about romance

Don Quijote is the book I always meant to read in college! Back then, my Spanish was pretty decent, but today... well, it's not what it used to be. But I got another chance, thanks to this innovative idea.

You can think of this book as an intermediate course/refresher in Spanish. Basically, you get the English version and the Spanish version in one book, and you can choose how much of both you want or need. The Author's Introduction comes first, translated into English, and then it's like a Choose Your Own Adventure: Do I want the Author's Introduction in Spanish? Do I want to jump to the Dedication in Spanish? Or maybe the Dedication in English? At the end of each section, you can make the choice based on how your reading is going.

I love this idea, and I really hope to see more interactive translations like this in the future!
