"I'm consumed by longing and regret."

By E. Bukowsky

Back in 1987, Scott Turow's "Presumed Innocent" created a sensation. It had all of the elements that fans of legal thrillers adore: murder, adultery, courtroom pyrotechnics, and a final twist that knocked everyone's socks off. In "Innocent," it is 2007 when Turow rejoins Rusty Sabich, who is now sixty years old and has risen to become Chief Judge of the Third District Appellate Court in Kindle County. He is hoping to run for the State Supreme Court in the near future. Unfortunately, his personal life has been far less successful than his career.

Turow keeps us off balance by going back and forth in time, changing points of view, and withholding key bits of information so that he can spring a few surprises in the final chapters. "Innocent" is an intense story of how people nurse deep-seated resentments that fester for years and do inestimable damage; of family members who are afraid to tell one another the truth; of infidelity and betrayal; and ultimately, of love and redemption. Turow's courtroom scenes are mesmerizing, and he makes the complex proceedings accessible and fascinating, even for those who know little about criminal procedure.

One quibble is that Rusty's behavior does not always ring true. He is supposedly an intelligent and self-disciplined individual who has learned something from his past mistakes, but his actions in this novel are too naïve, foolish, and self-destructive to be believed. In addition, there is a bit of contrivance in the way the author sews up the threads of his narrative. Still, Turow knows how to grab our attention and hold it, and he maintains a high level of suspense throughout this intricate tale. The sharply written and sometimes earthy dialogue as well as Turow's entertaining and often dryly humorous prose keep things moving along quickly. "Innocent," as its predecessor did more than two decades ago, demonstrates how difficult it is to mete out perfect justice in an imperfect world where so many people lie to themselves and others.

In "Innocent," Scott Turow presents a sequel to his 1987 debut novel, "Presumed Innocent." Judge Rusty Sabich is accused of murder once again--but this time it is of his wife Barbara. The story is mostly told in flashbacks, from Spring 2007 when Barbara was still alive, to Fall 2008 when she mysteriously passes and Spring 2009 when court proceedings are well underway.

In Spring 2007, Judge Rusty Sabich is a happily married man, who sympathizes with his bipolar wife Barbara and shy, law-school graduate son Nat. His world is turned upside down after he starts an extra-marital affair with his former law-clerk, Anna, who is young enough to be his daughter. Complicating matters is that Judge Sabich's election to the Supreme State Court is coming up, and news of his affair can cost him not only his wife, but his career.

Fast forward a year, and Anna has broken up with Judge Rusty Sabich. Instead, she starts dating his love-struck son Nat---but is terrified of word slipping out about her past relationship with his father.

And then the unthinkable happens--Rusty Sabich is accused of murdering his wife Barbara when he doesn't react properly to her failure to get up. Instead of calling medical services, he spends twenty-four hours at her bedside in a trance-like state. By the time Barbara is finally seen, she's no longer alive. By this time, even his son Nat has trouble figuring out if Rusty is guilty or not.

Meanwhile Rusty's old nemesis from "Presumed Innocent," acting prosecuting attorney Tommy Molto, assisted by his fiery chief deputy Jim Brand, sees his chance to finally get back at Rusty by gathering enough evidence against him to bring the case to trial. A legal-thriller type court battle ensues, and takes up much of the book.

This is my first Turow book, but I thought it was a solid plot. I like court-type legal thrillers that focus on the drama of trial and strong characters. This book fits this category. We get a detailed set-up, with each chapter being told from the point of view of different characters, and their various secrets.

Twenty five Years Later

By Mystery Addict

Its been almost 25 years since the ending of Presumed Innocent made it one of my ten best reads, a feeling reinforced by the Harrison Ford movie. A lot has changed in that time. I for one am now in my early 50's and the main character Rusty has just turned 60. My view of life has changed dramatically while Rusty's world not so much. The familiarity of the continuing characters including Molto & Stern gave a comfortable ease back into the plot and new characters Nathan & Anna have depth and color. I would have liked to see more of Rusty's wife though. Turow's use of a changing timeline and variable character viewpoints tended to be confusing and a cleaner way of telling the story might have helped. The story evolves into part

Grishamess courtroom drama, part Law & Order, part Lifetime and part social commentary on family life in America. I am not sure in which of the genres (if any)the author was trying to write but he fails to stand out in any. That being said, I am still thankfull to Turow for the sequel and all in all an OK read.
