Let's Stop Talking Sex and Get on With it!!

By Carl

Great little book that took me a bit by surprise. It was more about creating an environment that is open, warm and non-threatening and very specific as to how to even paint the walls. I was amazed and surprised and the simplicity of the ideas was easy to put to use in immediate ways. Great insight into the world of energy!! Glenda is warm and personable and really presents the material in a pleasant and fun way. Like I said...surprised!!

Very informative and easy to read!

By Blackbird II

This book is very informative, and it gives you a lot of information in less than 100 pages. There were many colours I had in my bedroom, which were blocking the love energy to come in, and with that book, I learned how to avoid having objects or colours that block the love energy in your life. This book explains you in details how to activate your love energy, whether inside or outside the home. I also have other e-books of Glenda, and since I started applying her advices many years ago, my life changed to the better!
