Was a great help both before and during our trip to Russia ...

By Jeremiah Dennis Nolan

Was a great help both before and during our trip to Russia until it was stolen with my fanny pack in St. Petersburg. We were warned about ripoffs in Moscow (where we had absolutely no trouble) but not in St. Petersburg (where we did - after several foiled attempts I might add).

Needs a Little More Work

By SF Guy

A good first try for an interactive book, articles are hyperlinked throughout, with external links to some very interesting websites. On the negative side, detailed maps do not have enough resolution to read easily, and zooming doesn't help. The inclusion of the index is puzzling, as it serves no purpose as implemented. The entries do not have page listings and they are not hyperlinked, so the index is a huge list of topics leading

nowhere, and at nearly ninety pages it is too large to search through easily.
