By Bob's Your Uncle

"This new volume represents a decade of work by the photographer question a seminal force in the art of the 20th century.

It is a renewing revelation of Beaumont Newhalls classic statement that we can only marvel that the most commonplace subject matter becomes poetic, and that the fragment becomes an artistic unit. Seen in series, the photographs have a cumulative effect: we are carried along from picture to picture: our vision is sharpened and our Imagination stimulated".
