THE SECRETS OF HIGH MAGIC: VINTAGE EDITION: PRACTICAL INSTRUCTION IN THE OCCULT TRADITIONS OF HIGH MAGIC, INCLUDING TREE OF LIFE, ASTROLOGY PDF

The great magicians, alchemists, and other masters of high magic may no longer be among us, but their wisdom remains intact in often-obscure documents for careful researchers like Francis Melville to uncover and gather. In this new Vintage Edition of *The Secrets of High Magic*, Melville enlightens his readers with the fruits of his investigations. High magic encompasses many doctrines and techniques, including the conjuring of spirits and nonhuman entities, ritual divination, the making and consecration of talismans, and exploration of other universes. This book is a practical guide to a wide array of occult traditions. Readers learn how to make a magic altar, read tarot cards, discover the secrets of alchemy, learn divination methods of geomancy and I-Ching, and much more. This favorite Barron's inspirational volume has been updated, given a handsome new cover, and set in an attractive new Vintage Edition format. The text is enhanced with attractive color illustrations.

A welcome addition to a magick library

By A Customer

This is a well organized and delightful reference book on the basic elements of magic. It covers the basics, including setting up an altar, what the basic tools are and how to consecrate them, succinct chapters on the Tree of Life, the major arcana and assigned to the twenty-two paths of the Tree, including the occult meaning for each of these cards based on Hermetic philosophy, and instructions for performing the major rituals essential to magic study, including the Kabalistic Cross, the Middle Pillar, the Greater and Lesser Rituals of the Pentagram and the Hexagram, and more. The chapter on Alchemy includes a pithy section on condensers, gold condensers, Universal solid and liquid condensers, Elemental fluid condensers, plus tinctures and other alchemical processes. There is even a section on the tattwa cards used for meditation and

screaming, popularized by the Golden Dawn.

This book is quite condensed and the information is well organized, concise, and ready to use. It serves as a good overview of the essentials of ritual magic, and while it does introduce these concepts, perhaps this book would be more for the intermediate occultist looking to take the leap.

This book is not just another rehashed magic text. Some of the topics, like the Alchemical processes, are not often found in general magic books.

A worthwhile read.

Compact, excellent quick resource

By Jason Blanchard--Author

A friend of mine first pointed out this book to me in a book store. If nothing else, I was entranced by the handsome, elegant beauty of this little tome.

But pretty books don't get my dollars. It was the information within that sold me. It contains the highest percentage of the best, most accurate and USEFUL magical information that a magician would need to know, all in a very small package. This book could be likened a miniature encyclopedia which contains quick, to-the-point, information on nearly every aspect of Western Magick (with a dash of the best of the Eastern teachings at the end of the book) without droning on and on with useless drivel that you could find in almost any other modern book on Western Magic.

And of special import to me is the fact that the author is one of the VERY few out there who recognizes that the 'traditional' elemental associations in regards to the magician's Tools, (i.e. wands=fire & swords=air) is flat out WRONG. In case you were wondering, as far as the Tools are concerned, wands=air & swords=fire.

Ironically though, if there is any wrong information in the book, it would have to be that the surprisingly correct elemental magical Tool association is not transferred to the Tarot Minor Arcana, meaning that the 'traditional' Tarot elemental associations still apply in this book (wands=fire, swords=air, cups=water, pentacles=earth). I found this error minor, and was not entirely upset about this, as the only author I know who has ever even attempted to correct this ancient mistake of Tarot elemental association in Western Magick is William Blystone, whose works will be published very soon.

All in all, I highly recommend this book to any magician, beginner or otherwise.

Jason Blanchard

Nice little Tome

By A Customer

This book is almost an offshoot of the one written by King and Skinner titled "Techniques of High Magic" with added information and rituals, both eastern and western in tradition.

For any practicing Magician, a nice piece to have around the temple or altar.

The material was well put together, making information easily accessible.

The paper was durable, print multicolored, simulated leather cover with 2 ribbons to tie shut when travelling.

I purchased a second one to send to a Magician I know in Chicago as a gift....and finding the second one in hardcover was difficult.
