Awesome Book!

By Natalie Leach

This book help me to understand what was going on in my relationship because I had never encountered a person like this before in my life. I had never really seen a true Jekyll and Mr. Hyde. It was unnerving watching him unfold so drastically so quickly, that I was desperately looking for answers. This book answered a lot of the questions.

All of Patricia Evans books are excellant

By Elaine Kress

The first book that I read from Patricia Evans was the "The Verbally abusive relationship. How to recognize it and how to respond". I read it years ago and recently bought the third edition of this book. It confirmed a lot of what I already knew. Her books will not make the pain and hurt go away. But the books will explain a lot of the behaviors. Her books are a must read.

An important read!

By EMoss

This is a great book for information, and especially for creating an agreement. The only downfall is that it isn't written particularly well. That is to be expected of a person who isn't a professional author. She repeats herself a lot. However, I've rated this book 4 stars because it is a particularly important read for anyone, such as myself, who found herself being verbally, and then physically abused.
