Set against the backdrop of sociopolitical upheaval in Czechoslovakia and then India, Karpal's life story demonstrates that history is borne on the shoulders of men, women, and children. Her husband, a loyal Czech, was charged by the Nazis with aiding Communism; after liberation, the Russians accused him as a supposed Nazi sympathizer. The family settled in Lahore, but were uprooted again during the India-Pakistan partition. They tried Australia next, and finally settled in the United States in 1957. In addition to an exciting story and some authentic recent history, we are treated to a vivid journey on three continents. Karpal's main point, however, is that men and women must remain true to their convictions despite the changing power structures around them. Recommended.

Courage Beyond Compare !

By Lagazzz1

I just want to say, how everyone has described the book is quite accurate.. I found this book at a thrift store for one dollar ! When I buy a book, I usually open it up randomly and if it grabs my interest I buy it... But, once I started reading it I could not stop until I was done,, and I wanted it to continue, I felt like I was Zdena,, Thank God I was not...! What a strong and noble person, she and her husband both were. I gave this book to a friend of mine from Amsterdam who saw what the Germans did, and she kept the book. so now I will buy one again, soon.

I will not mention the ending here (bad girl..lol) but I am glad it ended well.

A Lasting Impression

By E. A. Artman

Out of gratitude to the American people, the author and her husband distributed this book to public libraries at no cost when they published the book in the early 1990's. That is how the book fell into my hands, as I was employed as a librarian at the time. I am happy to see that over the years this book has developed a following of sorts because it has made a lasting impression on me. Before reading the Kaprals' account of their life in Czechoslovakia before, during and after World War II, I was ignorant of the hardships imposed on the Czech population by the Nazis and the "liberating" Russians. However, I have never forgotten the events that Zdena Kapral vividly described in this memoir of her family and which left me with a deep appreciation of the pervasiveness of the Nazi hostilities. It is easy to focus on the atrocities committed in the infamous concentration camps. This book conveys the reality that much larger populations lived in the shadow of imminent Nazi threat throughout the war and that, for purely geopolitical reasons, some of these populations were then deprived of the expected post-war recovery for decades to come. In doing so, Zdena Kapral's account not only shines light on less familiar history for the typical American reader but also provides insight into the economic challenges confronting Eastern Europe today.

Breathtaking authenticity

By Michal

I am a Czech and my grandfather was a colleague of Alex Kapral in his endeavor of setting up Biochema company in 1930s. I lived in the places described in this book, well I am actually writing this comment from the room where portion of the book happened (Ricky property), now a scout environmental education centre ([...] As other reviewers mentioned the book is written in the very touching way - you can't stop reading. Moreover if you have firsthand experience with the story and you know it is not a made-up novel but the REAL ACCOUNT. The author frames her personal story into real history events thus giving reader unique insight into the life of the whole generation challenged by turmoils of 20th century.

And last but not least it is also a story of a couple that came to USA penniless in 1950s and after 20 years of hard work was selling their enterprise (largest world producer of siliconized paper) to a multinational company.

Czech scouts also published 5th edition of the book in 2012 (in Czech) under the title "Zitra bude lip" enriched of authentic family photos and chapters describing charity activities of the Kapral family in 1990s.
